

**Larry Creakbaum -  
MY FIFTY YEARS OF TABLE SHUFFLEBOARD**

**12/31/09**

I saw my first shuffleboard table before becoming a teenager when my father took me into a bar in Mentone, Indiana on Saturday afternoon's after completing farm business. They had the best chocolate malts in the area and I would have a malt while dad drank a beer. At the time there was no law that required a person to be twenty one to enter a bar. The shuffleboard was against the wall and when no one was playing I would throw the weighs up and down the board. Then they passed the twenty one law and the owner put in a petition in the middle with the shuffleboard on the bar side which stopped my practice.

I went off to college and my high school friends found a bar in Warsaw which had a shuffleboard table and they were lax about checking I.D. When I came home during the school year or in the summer we would get together for a game. Thelma the owner taught us the rules of the game. My fraternity brother worked in a bar in Lafayette which had a table and I started to go in there when at school. In both places if you hit all the weights you could win as not too many players played enough to hit weights. I soon became a pretty good weight hitter by these standards.

I graduated from Purdue in January of 1957 and in July was drafted into the army. I only played a few months before leaving for the army. I spent two years at the Yuma Test Station in Yuma, Arizona and they had a board in the PX but none of my outfit played. There was one sergeant on the post who knew enough about the game to play but he only beat me once in the eighteen months I was stationed in Yuma. I was discharged in July of 1959.

I returned to my job in Indianapolis and went home to the farm on week ends. I found boards in Indianapolis to play throughout the week and on week the end played at the original bar where I saw my first board years earlier or with my friends in Warsaw. One Friday night my high school classmate and I heard there was a Tournament in North Webster. It was not the Lucky's we know today but on the North edge of down town on the east side of the street in a building that is probably gone now. We were soundly beaten as every one could hit weights and threw a lag every now and then. But I was hooked, my tournament career was underway.

Back in Indianapolis I started bowling in the winter and playing fast pitch softball in the summer. I played only an occasional tournament from 1960 to 1963 but then started spending more time at the second bar in Mentone. The owner loved to play and played all free hand but was a pretty good lagger. We could beat most players in the county but when we ventured into the Elkhart-Mishawaka area in 1963 we were no match. When we first ventured north in '63 I found the Elkhart-Mishawaka area played with different rules. The Elkhart-Mishawaka area played short board-switch hammer and we in Kosciusko-

Marshall County played long board keep-hammer. We got to know the players in the north and when, John, the owner of the second bar in Mentone, had a tournament a lot of the players from Elkhart-Mishawaka came. Four of the players drew each other in the first round and with keep hammer they played forty five minutes before they scored and the game took two hours. Our area soon after switched the rule to switch hammer. Short board came some years later.

The fall of 1963 the company for which I was employed sent me to Morehead, Kentucky to manage a branch office. This put a crimp in my bowling, softball and shuffleboard and lasted until the summer of 1965, but I did buy my first airplane which helped me get back and forth. In 1965 I upgraded to an airplane which had a bigger engine and it was faster and could carry more weight. Both airplanes had four seats. The project we were working on in Kentucky started winding down in early 1965 and I was able to get home and play in four tournaments.

Ron Reichert was at the airport during the fall of 1965 learning to fly and we met and started discussing shuffleboard. We became partners and played in six tournaments in the spring of 1966. The first tournament in which Ron and I played in '66, all I had to do was to lag one across the second foul line for a one and we won but on the slick board I through it off the end and we lost. The second tournament we played I experienced my first taste of victory when we won. We went on over the next few years to win eighteen times. Another big change I made in 1965 was in my business career I went to work for the State of Indiana and this also gave me greater control of my schedule.

Ron received his flight instructor rating and took a job at a small airport near Indianapolis and we would fly back and forth on week ends to play shuffleboard. The games were all 21 points, long board, switch hammer single board tournaments and were played on Saturdays and there was a tournament every two weeks. This lasted until the end of 1967 when Ron took a job as a corporate pilot and became partially unavailable.

The tournaments were scheduled by a local business person who traveled the local area extensively. He would stop in a facility and they would agree on a date and he would pass the word at a tournament. Sometimes you only had a weeks notice but everyone seemed to find out and would show up. There was never a written schedule. This lasted until the middle to late sixties when the person became physically incapacitated. My business calendar, which I started in 1965, also recorded the shuffleboard tournaments to keep them from conflicting on my schedule. For the next year I made a schedule with the same approximate dates year made billfold size copies, and passed them around. This worked fine for a couple of years until a couple of bar owners thought they could do better. After about one year there was chaos as to where we played and I took over again but gave the bar owners a phone call and worked out a date. This worked fine and I even

expanded the schedule to include central Indiana, the major national tournaments, and a few tournaments in Michigan and lasted until the late nineties. Then I decided to have a selection day and came up with a plan allow owners to select their dates based on tradition and favoring owners who were starting to add money to the entry pot. Two brand new owners rebelled and scheduled tournaments on the same day so I wrote a letter and quit. I never looked back.

Two of the players from the north were Frank and Bill Knox the older brothers of Jerry Knox. They had an uncle who lived in Mentone and they would occasionally come to visit him. They hunted and fished a lot and at the 1966 spring Bourbon tournament we agreed, along with Freddie Vandermark of Mentone, to fly to Hayward, Wisconsin over the Memorial Day week end and fish for Walleye. This was the first of many trips we would make to Hayward, Silver Bay, Minnesota trout fishing, Munising, Michigan grouse hunting and Wawa, Canada Walleye fishing.

I played with many partners in '68 and in the spring of '69 teamed up with Bill Knox and we won three in a row and as always I played softball in the summer. When fall came the person Ron flew the airplane for sold the airplane and he was out of a job. I got him a job flying for the state in my department and I not only controlled my schedule but my partners. We played together until '75 when Ron took a job with airlines and was gone from shuffleboard.

During this time in 1970 Ceylon Davis of Michigan started a six person team tournament at the Lansing Eagles which was next to the Lansing airport. This made it very convenient for Ron and me to fly in and play. The tournament was a best out of nine format on one board and could take five or more hours to play a match. We started on Friday night and hoped to finish on Sunday. Carl Ditmar from Niles, Michigan asked Ron and me to play on his team which would consist of Bill Knox, Skip Jerue, Ron, me, Carl and whomever he could find. Over the next few years we played he came up with Dick Raymond, Glen Davidson, Billy Mays, Jim Rolland (Batman), and others and we broke in a newcomer along the way, Jerry Knox. Another team from Indiana was formed by a dark haired person just out the army by the name of Jim Long which consisted of Jerry Smith, Howard Gogley, Paul Pike, Bob Criger, Bill Bowers and at times, others. We played in 1970 and Long's team won and we finished second. In 1971 we won and Long's team finished second. In 1973 eight teams entered and when Sunday came the tournament director said we cannot finish unless we play best of five. At sometime around midnight we started the last match with each team having lost one match. Each team won two games and there was not time enough to play a fifth game. They found an alarm clock and set it for two thirty and agreed when the alarm rang we would finish the frame and the team ahead won. When the alarm went off we were ahead by two points with the hammer. Jim Long went around Skip Jerue for a two and tied the game. We split the

money and flipped for the trophy which we won and I have no idea what happened to the trophy.

In 1970 I rented a house from the Indianapolis Airport Authority which had a basement and room for a shuffleboard table. I purchased a board and within two months my lag improved tremendously. Also about this time on one of his trips to Michigan, Billy Mays brought his wife Jean. She watched me warming up and said "you will never be a player shooting like that" and showed me a changed delivery. I went home and practiced and within two weeks I changed. Jim Long played primarily with Jerry Smith or Paul Pike and I played with Ron and between us we won most tournaments. There are an awl full lot of seconds in my records. In 1972 I upgraded to a twin engine airplane which had five seats and again in 1976 to a twin with six seats which allowed more flexibility on our travel. I also used the airplane for business or I could not have afforded to own one.

Sometime between 1966 and 1972 Bud Visel from Michigan appeared on the scene and suggested we auction the teams to the highest bidder and the Calcutta or sponsor sale as we now call it was borne. Tragedy struck the team in 1972 when Butch Visel, Bud's son and Cliff's brother, along with Bill Knox were killed in an automobile accident. Bill and I had decided to be partners when the action started that fall. The 1973 spring Bourbon tournament was held as a memorial to Butch and Bill. The Bourbon spring tournament started in 1961 and until someone proves different is considered the longest, running, continuous tournament.

I continued to play regularly with Ron until the spring of 1975 when he left for the airlines. In 1974 I changed careers again and went to work for another consultant.

In 1973 Jim long and I teamed together at the Rochester VFW and won the first tournament in which we played. We played together in 1974 and 1975 and my records show I played six times with Long and four times with Skip Jackson. I won twice with each player. Sometime in this period Jerry Smith had a heart attack and Jim was bouncing around. At the beginning of 1976 we started playing together regularly and after losing the first tournament of 1976 we won five out of the next six tournaments in which we played. Jim and I had our best year in 1982 when we won seven times and got one second and two thirds in twelve tournaments. Jerry Knox and Skip Jackson started playing together and we become known as "The Cartel". For more than a decade we were always together.

This is when we played in one board locations with single game elimination and to 21 points using house weights. Billie Mays remembers using own weights as starting in 1983. When we went to 15 points I do not remember. Even the Bourbon Legion with two boards played 21 points single elimination. When you drew a board you stayed there until

the finals and then it was one game on each board and the winners were determined by total points. They were still playing this way in 1985 and when they switched I do not remember. In a tournament write up in the board talk Steve Hart states they went to double elimination the last four tournaments for the first time in central Indiana in 1987. We probably followed shortly thereafter. The fall 1986 Bourbon Tournament was advertised as a single elimination in the Boardtalk. The May 1987 issue of Boardtalk states a tournament held on April 18 at the Bourbon Legion was double elimination and advertised the May tournament as a single elimination. My records show most tournaments in which I played in Elkhart and Michigan were double elimination.

Jim and I were a constant team from '76 to '87. I would fly into Elkhart and pick up Jim and go on to Michigan or Ohio, or Jim would pick me up and drive to northern Indiana Tournaments. But we lived 200 miles apart and Jim and Jerry Knox who lived in the same area started taking short pop up trips together. In '88 they started to play tournaments together. We started playing regularly again in '95 when, Jerry started playing less, and into '99 when I was diagnosed with Parkinson's, my abilities started to decline and Jim had to go another way. Skip and Jerry have quit high competition shuffleboard and Jim and I share a sponsor purchase now and then, but other than that like the "Ratpack" on the west coast, its over.

I started recording my tournaments very early and along with my business calendar and my pilot log book have an accurate record of play. For some reason I quit logging tournaments in '87. Board talk came along in '84 and lasted through '04 but they only published what they were sent and where a team placed. They did not publish who played together or in most cases how many teams entered. Northern Indiana did very poorly in submitting tournament results and a lot of information on tournaments is not available from '86 until '05. I only kept a log of who I played with and not of Jim, Jerry or Skip, and a lot of their tournaments are not available. Jim and I won 48 of 192 verified tournaments and over two thirds of the tournaments we played were single elimination tournaments. Also you used house weights. No one had their own weights in Indiana until the late eighties or nineties. I know between the four of us we played more, but nothing was ever recorded. Jim and I played in fifteen Bourbon spring tournaments, winning once and receiving one third and one fifth. I have reproduced my tournament log along with some info on the cartel.

Jim Long played with Jerry Smith from some time after leaving the Army in '59 until Jerry became slowed by illness. They won several tournaments in Northern Indiana and Michigan which there are not any records. Jim averaged over 4 wins per year from 1974 thru 2008 and if he did the same in approximately that early fourteen year period it could easily be said he would have won over two hundred times in his career.

| YEAR | LOCATION                     | PARTNER          | FINISH          | AIRPORT OR OTHER NOTES      |
